INDEX TO VOL. XXXIX.

Electrical Review.

NEW YORK.

JULY 6 TO DECEMBER 28, 1901.

26206

INDEX TO VOLUME XXXIX.

ELECTRICAL REVIEW

JULY 6 TO DECEMBER 28, 1901.

Articles marked * are illustrated; those marked ** are notes under the heading "Science Brevities;" (E.) indicates "Editorial"; (P.) indicates notes under "Recent Electrical Patents."

A

Accumulator electrodes, process for making (P.)* 75
Accumulators for station emergencies* 230
Accumulators, new** 468
Acetylene, electrochemical behavior of** 533
Acetylene generator in Sweden, new 793
Acid concentration, electric heating for 97
Adelaide, South Australia, electrical illumination at* 800
African trade, South 664
Aguinaldo's proclamation type 196
Alaska, extension of telegraph in 219
Albany & Hudson Railroad, the* 69
Alternating-current circuits, regulating devices for series, by J. Henry Hallberg* 639
Alternating and direct-current transmission on city lines, by M. S. Hopkins 518
Alternating-current discharge, studied with reference to its spectrum and especially the ultra-violet spectrum, the induced, by A. W. Wright and E. S. Downs 37
Alternating-current transmission lines, the theory and calculations of, by Charles W. Startsman* 781
Alternating dynamo electric mechanisms, the theory of, by W. Elwell Goldsborough,* 3, 35, 63, 91, 119, 149, 180, 207, 239, 271, 301, 371, 442, 470, 534, 599, 659, 751, 780
Alternating high-potential transmissions, theoretical investigation of some oscillations of extremely high potential in, by Charles P. Steinmetz* 449, 477, 505
Alternator, a new type of inductor* 169
Alternators, drop in** 401
Aluminum conductors** 432
Aluminum lines in Italy 19
Aluminum rectifiers** 64
Aluminum rectifiers** 692
Aluminum zinc alloys, commercial 82
American goods for Australia 795
American Institute of Electrical Engineers 647
American Institute of Electrical Engineers, the 554
American Society of Mechanical Engineers 739
Ammonium perchlorate 97
Anæsthetic, electric current as an 277
Arc, the speaking** 64
Arc lamp (P.)* 45
Arc lamp (P.)* 75
Arc lamp attachment, a new* 112
Arc lamp globe holder (P.)* 45
Arc lamp street signs, a new type of* .. 328
Arc lamps, direct-current enclosed* 771
Arc lamps, enclosed* 588
Arc lighting system, a new series alternating-current* 771
Arc light, new type of (P.)* 351
Architect, a word to the (E.) 467
Armature conductor (P.)* 308
Armature oven, a simple, by H. C. Heidrich* 510
Australia, American goods for 795
Australian cable soundings 666
Australian telephone systems 190
Automobile design (E.) 626
Automobile exhibit in New York 582
Automobile exposition in Leipzig, bicycle and 19
Automobile race, the Buffalo-Erie 100-mile 328
Automobile show, the* 612
Automobile, the (E.) 598
Automobile tires, experiments with 350
Automobile tour in Europe, Americans enjoy an* 327
Automobile trials, Scottish 494
Automobiles for fire departments 225
Automobiles in England, military 227
Automobiles in Europe 389
Automobiles in France, American 159
Automobiles in France, new regulations for 41
Automobiles, some new types of electric* 51

B

Babcock & Wilcox Company *vs.* Joshua Hendy Machine Works 554
Baggage cars, trolley (E.) 336
Bangkok, trams and telephones of 728
Barstow, Mr. W. S 360
Batteries in an isolated plant, storage*. 619
Batteries, portable railway storage 82
Battery, a modern type of formed storage* 703
Battery, a new type of storage* 521
Battery, dry (P.)* 411
Battery, Edison's storage (P.)* 109
Battery, electric (P.)* 547
Battery, electric (P.)* 635
Battery, new type of dry* 82
Battery plate-holder, storage (P.) 698
Battery, the storage (E.) 626
Belgian coal mines, electric power in .. 753
Bethell, of New York, general manager of the Chesapeake & Potomac Telephone Company, Mr. U. N 422
Bignami, Enrico* 714
Bismuth estimated electrolytically** ... 148
Bismuth, resistance of** 432
Boats, French submarine 215
Boilers, disincrustation of 583
Book Reviews 79, 645, 727
Booster patents, suit on 460
Boston Electric Elevated Railway, the*. 5
Boston Electric Light Company, the ... 228
Boston Elevated Railway, coal handling at the Lincoln power station of the* 457
Boston elevated, the 83
Boston, the rapid transit situation in, by Louis Bell 369
Brackets, malleable drive* 262
Brake and electric car-heating apparatus, magnetic* 226
Brann tubes as electrometers** 338
Bremen, the 554
Bridge, electric ornamentation of a park, by H. G. Tyrrell, C. E.* 643
Bridge, tunnel *vs.* (E.) 31
British antarctic expedition 196
British tramway changes hands 714
British Westinghouse Electric and Manufacturing Company, Limited 786
Buenos Ayres, electric traction in 325
Buffalo electric railway profits 753
Bullock Electric Manufacturing Company, the large machine shop of the* 585
Bunnell Telegraphic and Electrical Company* 48
Bureau proposed, German technical ... 170
Bureau of Standards, the (E.) 561
Bureau of Standards, the visiting committee of the National* 23
Business, the outlook for (E.) 89

C

Cable box, a new* 674
Cable Company, Commercial Pacific 421
Cable hanger, a new* 800
Cable, manufacturers and the transpacific (E.) 710
Cable, new Mexico 769
Cable, New Zealand-Australian 97
Cable securing device, feeder (P.)* ... 351
Cable splice, improved (P.)* 758
Cable, the transpacific 768
Cable to Hong Kong, proposed 391
Cables and telephones in Greece 513
Cables into conduits, machine for drawing (P.)* 353
Cables, the insulation of 386
Cadmium spectrum** 272
Calcium carbide** 338
Calcium carbide from silicious materials 36
Calcium in calcium carbide, metallic .. 78
Calcium carbide in metallurgy** 433
California, power transmission in 741
Canal traction in France, electric, by M. Fabre* 165
Canals, electric haulage on 572
Capacity of the human body 401
Cape Nome-St. Michaels cable working well, the 553
Capillary electrical phenomena 168
Carbon anodes, testing** 712
Castner works at Niagara Falls, new transformers for the* 290
Carbon dioxide decomposed electrolytically** 272
Carnegie Technical University, the 80
Cathode rays* 627
Central station design (E.) 429
Central station, peregrinations of the (E.) 205
Central station superintendent, the (E.) 29
Central station superintendent, the, by J. H. Vail* 32
Chafing dishes, electric* 674
Chambly-Montreal power transmission, the* 313

Chambly-Montreal transmission, the (E.) 299
Chattanooga, electric railways in..... 498
Chicago Electrical Association programme 498
Chicago electrical notes, 620, 648, 677, 742, 772
Chicago telephone service, new..... 801
Chlorates, electrolytic..... 15
China, American trade with..... 570
Christmas (E.)..... 749
Chromium, electrolytic**..... 469
Circuit-breaker, a new*..... 590
Cleansing of metallic surfaces, the electrolytic** 383
Coal handling at the Lincoln power station of the Boston Elevated Railway* 457
Coal mines, electricity in..... 196
Coal mines, electric power in Belgian.. 753
Coal production, world's..... 423
Cobalt and nickel, electrolytic separation of**..... 338
Coherers not necessary for space telegraphy** 432
Colby, Albert Ladd..... 44
Coloring of metals, galvanic**..... 692
Combination of electrical manufacturing companies, proposed..... 675
Commerce, American and German..... 480
Committee appointed by London Chamber of Commerce, report of electrical 572
Condolence from our British colleagues 390
Conduction, metallic**..... 338
Conduction of electricity through metals** 383
Conductivity of gases, electrical**.... 401
Conductivity of solution in liquefied ammonia** 468
Conductor, insulated electrical (P.)*... 789
Conduit, a new flexible..... 587
Conduit construction and the national electrical code, interior, by Edward Sullivan 610
Conduit, metallic (P.)*..... 759
Conduit plow (P.)*..... 130
Conduit system, the practicability of placing high and low-potential wires in separate ducts in a combined, by Charles F. Hopewell..... 763
Conduits, high and low-tension wires in the same (E.)..... 750
Conduits or through the same manholes, inadvisability of placing high and low-potential wires through the same, by Captain William Brophy.. 662
Conduits, the joint occupancy of (E.)... 654
Construction and protection of aerial transmission and distribution systems, notes on the, by K. B. Thornton*.....14, 42
Control, a system of remote*..... 50
Control of high-potential systems of large power, the, by E. W. Rice, Jr.* 282
Controller, electric elevator (P.)*..... 245
Controller, time-element (P.)*..... 548
CONVENTIONS.
American Association for the Advancement of Science..... 358
American Association for the Advancement of Science, meeting of the 168
American Association for the Advancement of Science, officers of.. 277
American Electro-Therapeutic Association 124
CONVENTIONS—*(Continued).*
American Institute of Electrical Engineers' annual meeting, the.. 251
American Institute of Electrical Engineers' annual meeting, the.. 221
American Institute of Electrical Engineers, the summer meeting of the..... 134
American Society of Mechanical Engineers 670
American Street Railway Association.....124, 292, 331
American Street Railway Association* 419
American Street Railway Association, the (E.)..... 399
American Street Railway Association, the*.....453, 481
Association of Edison Illuminating Companies.....218, 292, 329
Electrical Contractors..... 691
Association of Edison Illuminating Companies, officers of the..... 357
British Association for the Advancement of Science, meeting of the.. 357
Engine Builders' Association of the United States..... 45
Independent Telephone Association of Southern Indiana..... 200
Independent Telephone Association of Southern Indiana, convention of the..... 129
Indiana Mutual Telephone Association, convention of the..... 167
Institute Convention, the (E.).206, 237
Institute summer meeting, French visitors at the..... 101
Institute summer meeting, the (E.).....147, 178
International Association of Municipal Electricians at Niagara Falls, meeting of 289
International Association of Municipal Electricians.....124, 225, 328
Massachusetts Street Railway Association's annual convention..... 498
National Association of Automobile Manufacturers 553
New York State Street Railway Association 330
Northwestern Electrical Association.....20, 786
Northwestern Convention, the (E.). 2
Ohio Electric Light Association.... 258
Rœntgen Society of the United States 277
Street Railway Association of the State of New York..... 262
Street Railway Convention, the.... 356
Street Railway Convention, the (E.) 298
Conveying appliances, some overhead tramrail* 326
Copper bars, electrolytic..... 24
Copper by electrolysis, the reduction and refining of..... 68
Copper in pyrites, quantitative estimation of**.....338, 627
Copper in transmission lines, economy of 218
Copper mining industry..... 795
Copper refining, electric, by George E. Walsh 213
Copper smelting in Central Asia..... 410
Copper welding..... 357
Crookes tube vacuum regulator (P.)*.. 22
Current-collecting device (P.)*..... 307
Current distribution (E.)..... 682
Currents in the earth**..... 208
Current regulator, a new type of*..... 52
Cutout, magnetic fuse (P.)*..... 635

D

Decadence of isolated plants, the..... 164
Decadence of isolated plants, the (E.).. 90
Delany rapid telegraph, the*..... 385
DeLaval steam turbine, the*..... 522
Development, an experiment in (E.)... 777
Dictionary, international technical.... 607
Dielectrics, structure and capacity of**. 712
Discharges from a point**..... 658
Dissipation at high altitudes, electric** 112
Dispersion in closed air spaces, electrical** 179
Distribution, a discussion of electrical*. 683
Distribution, current (E.)..... 682
Donation, a useful..... 780
Dustin Company, the Charles E..... 394
Dynamos and motors, some new*..... 589
Dynamos for ignition work*..... 588
Dynamos, designing of..... 506

E

Earth, currents in the**..... 208
Economizers in steam installations, fuel* 520
Edison at Buffalo..... 84
Edison Electric Company in Paris..... 287
Edison Storage Battery Company..... 458
Education, electrical..... 169
Education, electrical (E.)..... 1
Education, the cultural value of engineering, by Frank O. Marvin..... 162
Effluvium, electric**..... 272
Electric arc under water, the..... 411
Electric baths..... 327
Electric dissipation at high altitudes** 112
Electric driving of machine tools..... 571
Electric locomotives*..... 799
Electric ornamentation of a park bridge, by H. G. Tyrrell, C. E.*..... 643
Electric plant in Greece, demand for.... 580
Electric power scheme for Ireland, new. 165
Electric suburban road in Westchester County, high-speed..... 168
Electric suction..... 261
Electric waves**..... 712
Electric waves in water, propagation of** 208
Electrical apparatus, drawbacks on exported 540
Electrical operation of modern machine tools and machinery, the, by Robert T. Lozier*..... 754
Electrical press, the (E.)..... 750
Electrical progress in India..... 165
Electrical Trades Society, the..... 772
Electrical work and the hot weather (E.) 61
Electricity and population (E.)..... 297
Electricity in coal mines..... 196
Electricity in European factories..... 198
Electricity in gold mining..... 120
Electricity in the treatment of sprains, static** 148
Electricity used in running..... 198
Electricity *vs.* gas..... 670
Electrochemical and electrometallurgical industry, by John B. C. Kershaw,* 446, 511, 628, 719
Electrochemical microscopy**..... 507
Electrochemical progress (E.)..... 431
Electrochemical society, proposed American 582
Electrochemistry (E.).....2, 147
Electrochemistry, industrial (E.)..... 367

Electrochemistry, selected chapters in, by Harry C. Jones,* 65, 93, 121, 150, 183, 209, 273, 303, 339, 359, 372, 402
Electrochemistry, some chapters in.... 62
Electrodes, process for making accumulator (P.)*..... 75
Electrolysis, influence of - oscillation on** 433
Electrolysis, influence of oscillations on, by Arthur Morris..... 131
Electrolysis of fused salts**..... 111
Electrolysis of water, commercial, by Arthur Morris..... 74
Electrolytes, disruptive discharge in**.. 433
Electrolytes, the spreading out of the lines of electrolytic action in**..... 779
Electrolytic dissociation..... 277
Electrolytic injection**..... 300
Electrolytic manufacture of metal papers** 111
Electrolytic separation of cobalt and nickel** 338
Electrolytic ore smelting**..... 111
Electrolytic manufacture of sodium.... 129
Electromagnet, novel (P.)*..... 547
Electromagnets for heavy lifting, by George E. Walsh..... 53
Electromagnetic effects of moving charged spheres, the, by Edwin P. Adams* 186
Electromagnetic theory of mechanics.. 133
Electro-motive force and osmotic pressure** 300
Electro-motive force, effect of gravity and pressure on**..... 338
Electron hypothesis, the (E.)..... 653
Electron idea, the development of the, by W. Kaufmann..... 667
Electrophone for deafness..... 717
Electrophone in England..... 414
Electro-Therapeutic Association, American 124
Element, a new photoelectric**..... 752
Elevator controller, electric (P.)*..... 245
Emperor William a traction magnate*.. 52
Engine stop, an electrical*..... 327
Engines, a new type of gas or gasoline* 616
Engines for electric lighting, automatic* 135
Engines in Glasgow, American..... 292
Engines, uniform rotation (E.)..... 504
Engineering Congress at Glasgow, the International 417
England, military automobiles in..... 227
England, subterranean telephone lines in 74
England, telephonic and telegraphic communication 152
English engineers to study our subways 190
Erie telephone properties and their future, the..... 13
Ether, electromagnetic properties of the** 4
Experiment, a successful (E.)..... 61
Experiment in development, an (E.)... 777
European factories, electricity in..... 198
Europium, a new element**..... 148
Expedition, British antarctic..... 196
Exposition at Cork..... 292
Exposition of American manufactures closed 700
Exposition power consumption..... 41
Exposition, the decadent..... 43
Export business, good..... 616

F

Fall River, Mass., automatic telephone exchange at*..... 604
Fan motor support, adjustable (P.)*.... 22
Fan, novel centrifugal (P.)*..... 351
Feno-titanium 16
Field regulator, automatic**..... 562
Filaments, manufacture of (P.)*..... 547
Filters, electrolytic..... 219
Fire extinguishers in Rouen, electric... 286
Fire pumps, trolley..... 670
Fire alarm cutout, a new*..... 360
Fire alarm telegraphs (E.)..... 532
Fire damp indicated by electricity**.... 208
Fire detecting wire*..... 590
Firemen, device for protecting..... 798
Fireman, the (E.)..... 430
Firemen from electric wires, how to overcome danger to, by Morris W. Mead 318
Fishing by electric light..... 224
Floor outlet box, a water-tight*..... 702
Fluoroscope, a new method of obtaining stereoscopic effects in the, by Eugene W. Caldwell*..... 601
Fourth avenue tunnel, the (E.)..... 146
Fourth avenue tunnel, the (E.)...117, 711
France, a new steam generator in..... 546
French submarine boats..... 215
Frequency indicator**..... 64
Fuel economizers in steam installation* 520
Fuel for Swedish railroads, new..... 795
Fuel used in Germany, new..... 140
Fulton, Robert, memorial..... 761
Fund for scientific research in France. 389
Furnace, a novel electric (P.)*..... 758
Furnace, electric (P.)*..... 307
Furnaces for Germany, smoke consuming 43
Fuse plug and base, a new*..... 135

G

Galvanometer, a simple astatic..... 540
Ganz system of electric traction, the (E.) 145
Ganz system of polyphase traction, by Enrico Bignami*..... 153
Ganz system, successful test of the.... 228
Gas engines for station driving (E.).. 238
Gas lighter, a new electric*..... 497
Gases, recent work on the spark and glow spectra of**..... 779
Gasket, a new type of metallic*..... 53
Gasoline motor car, general specifications for a, by H. Ward Leonard.... 420
Generator, a special electrolytic*..... 551
Generator, new electric..... 262
Generators, new types of direct-driven*. 197
Generators, testing of three-phase**... 401
German electricity works, statistics of.. 513
German high-speed traction experiments (E.)..... 654
German tariff, proposed new..... 390
Germany, high-speed electric traction experiments in..... 185
Germany, high-speed electric traction in 655
German technical bureau proposed.... 170
Germany, smoke-consuming furnaces for 43
Germany, the high-speed electric traction experiments in, by United States Consul-General F. H. Mason. 741
Giving of money, the (E.)..... 778
Glasgow exhibition, the (E.)..... 429
Glasgow international exhibition, the, by Sydney F. Walker*..... 434
Glasgow, the International Engineering Congress at..... 417
Glass, manufacture of**..... 384
Gloves for protecting electricians..... 619
Glowers, method of treating (P.)*..... 697
Gold mining, electricity in..... 120
Goltz Engineering Company and F. B. Badt & Company..... 582
Great Britain, news from, 40, 160, 324, 514, 614, 704
Greece, demand for electric plant in.. 580
Greece, electrical progress in..... 312
Great Britain, astonishing reform in... 553
Greece, cables and telephones in Greece 513
Grinders, electrically driven*..... 392
Guy anchor, novel type of*..... 83

H

Halle-Merseburg electric railroad..... 356
Heater, a novel electric*..... 24
Heating, electric*..... 618
Hertzian waves in thunder-storms**.... 468
Hertzian waves, penetration of**..... 507
High and low-potential wires in separate ducts in a combined conduit system, the practicability of placing, by Charles F. Hopewell..... 763
High and low-tension wires in the same conduits (E.)..... 750
High-speed electric traction experiments in Germany..... 185
High-potential systems of large power, the control of, by E. W. Rice, Jr.*.. 282
Holland electric submarine boat, the (P.)* 389
Hose signal, electric (P.)*..... 167
Hubbell made president of two large telephone organizations, Mr..... 102
Hungary, railway enterprise in..... 228
Hunting, device for preventing (P.)*.. 759
Hydro-car, a new*..... 672
Hydrogen, the manufacture of**..... 64

I

Illumination at Adelaide, South Australia, electrical*..... 800
Illumination, the history of (E.)..... 335
Illumination upon metallic surface, effect of**..... 562
Incandescent electric lamp, the Crawford-Voelker, by F. Z. Maguire*.... 792
Incandescent electric lamps, a new mode of manufacture and repair of (P.)* 581
Incandescent electric light manipulators* 587
Incandescent lamp filaments, vibrations of** 507
Incandescent lamp invention, an interesting contribution to*..... 460
Incandescent lamp, reflector (P.)*..... 351
Incandescent lamps for street lighting (E.) 626
Incandescent lamps, spiral filament*... 703
India, a magnetic survey of**..... 507
India, electrical progress in..... 165
India, electric traction in..... 292
Inductor alternator, a new type of*.... 169
Industrial supremacy, the struggle for.. 46
Insects and the X-rays..... 161
Installation, an economical Swiss (E.). 299
Institute of Electrical Engineers, American 647
Institute of Electrical Engineers, American, a discussion of electrical distribution* 683
Institute of Electrical Engineers, the American 554, 675
Institute, the (E.)..... 710
Insulated electrical conductor (P.)*.... 789
Insulating material, new form of (P.)* 789
Insulating power of electricians' gloves. 225
Insulator, adjustable (P.)*..... 411
Insulator, a new strain*..... 701

Insulator for storage battery plates (P.)* 790
Insulator, new (P.)*..... 167
International correspondence schools*.. 740
Interrupter for alternate currents, disc** 533
Interrupter, liquid (P.)*..... 791
Interrupter, simplified liquid..... 120
Invention (E.)..... 625
Ionic velocities in aqueous solutions, new method for the measurement of** 338
Ions in the atmosphere**..... 627
Ions, on the color of**..... 533
Ireland, new electric power scheme for. 165
Iron pickled electrolytically..... 609
Isolated plants, the decadence of..... 164

K

Kellogg telephone and switchboard exhibit at the Pan-American Exposition, the*..... 524
Kerosene engine and generator direct-connected* 394
Kings County station of the Edison Illuminating Company of Brooklyn, the* 191
Knobs on buildings..... 768
Korea, electrical developments in..... 590
Kronprinz Wilhelm, the..... 422

L

Lackawanna railroad to use telephone despatching, the..... 51
Lamp ampere-meter, a*..... 587
Lamp glowers, method of treating (P.)* 697
Lamp fixtures, some modern*..... 586
Launch, a forty-two-foot, electric..... 551
Lamps at Navy Yard, incandescent.... 82
Lamps, vacuum tube (E.)..... 503
Lead from manganese, separation of**.. 338
Lead iodide, electrolysis of molten**.... 692
Lead, radioactive**..... 627
Lehigh University..... 691
Leipzig, bicycle and automobile exposition in..... 19
Light companies to municipalities from a legal standpoint, the relation of electric, by D. L. Gaskill..... 412
Light for fog, electric..... 572
Light from antarctic winds, electric.... 228
Lightning 29
Lighting and population, electric street, by Alton D. Adams*..... 578
Lighting, electric train..... 648
Lighting industry of the United States, the electric..... 573
Lighting installation wanted, domestic. 540
Lighting in the United States, electric (E.) 559
Lighting of the Louisville, Ky., knights templar conclave, decorative electric, by G. Wilbur Hubley*..... 322
Lighting policies, electric (E.)..... 561
Lighting policies, electric, by Henry L. Doherty* 718
Lighting, receptacles for marine*..... 135
Light treatment of lupus, Finsen..... 185
Lightning and transmission lines (E).. 269
Lightning arresters..... 356
Lightning arresters, alternating-current* 261
Lightning, nature of**..... 600
Lightning, the electrical energy of*... 257
Line construction good (E.)..... 711
Linotype motors*..... 646
Lithium and alkaline chlorides by electrolysis, extinction of**..... 533
Locomotive, electric..... 539
Locomotives, electric*..... 799
Locomotives, electric freight*..... 493
Locomotive, the future of the (E.).... 178
London, American exhibition in..... 670
London Chamber of Commerce, report of electrical committee appointed by 572
London contract awarded..... 773
London securities company, large..... 773
London traction company, Mr. Yerkes's. 289
London underground railways..... 97
London underground railways to have American equipment..... 741
Long-distance transmission, elements of design particularly pertaining to, by F. A. C. Perrine*..... 255
Long Island Railroad with rapid transit system, plan to connect..... 498
Loschwitz, Saxony, the railway at*.... 39
Luminous and vibratory electrical effects** 300
Lupus, Finsen light treatment of..... 185

M

Machinery, the electrical operation of modern machine tools and, by Robert T. Lozier*..... 754
Magnalium, a new alloy**..... 469
Magnets, preservation of standard**.... 752
Magnetic blow-out controller (P.)*..... 130
Magnetic effect of electrical convection** 179
Magnetic properties of human blood**. 432
Magnetic properties of new irons**..... 752
Magnetic survey of India, a**..... 507
Magnetization and modulus of elasticity** 627
Manganese, Russian trade in..... 753
Manhattan Elevated Railway, electric trains on the..... 704
Manhattan Railway Company, meeting of the stockholders of the..... 647
Massachusetts, electrical supply stations in, by Alton D. Adams*..... 103
Massena power development, the*..... 98
Matter, the ultimate constitution of (E.) 367
McKinley, memorial..... 647
McKinley, one of the last photographs of President..... 357
McKinley, President (E.)..... 335
Metallic surfaces, effect of illumination upon** 562
Meter, a novel direct-current*..... 549
Meter, electric (P.)*..... 75
Metric system, importance of using the. 769
Metric system in England**..... 300
Metric system, the..... 581
Metropolitan Street Railway Company of New York..... 772
